

CALL FOR Tribal Injury Prevention Participation!

The Albuquerque Area Southwest Tribal Epidemiology Center (AASTEC) is conducting its bi-annual Tribal Injury Prevention Regional Assessment to better support all tribal communities in our area.

Access the Tribal Injury Prevention Regional Assessment with the QR code or click [here](#) or go here <https://www.surveymonkey.com/r/K39WMQG>

This brief questionnaire has been designed to collect information about existing tribal injury prevention programs as well as technical assistance and resources needed to establish and/or strengthen these services in your community. It will take approximately 10-15 minutes of your time to complete. Your participation is confidential and very much appreciated! If you work or are involved in injury prevention in any of the Albuquerque area 27 tribal communities in any way, i.e. as a Tribal Health Administrator, CHRs, Environmental Health, Law Enforcement, EMS/EMT, Head Start, Senior/Elder Services, Wellness Centers, Housing Authorities, Social Services, Public Health Nursing, Diabetes Programs or any other injury prevention work we would appreciate your feedback. The first ~100 qualified participants who complete the survey and leave their email will receive an incentive of a \$30 Amazon gift card.

For more information please contact: Sixtus Dominguez ASDominguez@aaihb.org or tipp@aaihb.org
